

Multiply Money Fees - 2019

Multiply Money gives you access to a savings wallet and a payment wallet. The cashbacks you get when you shop at our cashback partners are transferred into your savings wallet where they earn interest and grow.

When you're ready to spend your cashbacks, transfer them to your payment wallet. You can spend your cashbacks in four ways:

1. Use mobile payments on the Multiply Money app at selected retailers.
2. Swipe your Multiply Visa® Card (if you qualify for one) anywhere in South Africa.
3. Pay directly on the Multiply online shop.
4. Send money to other Multiply Money users by transferring your cashbacks to them.

Multiply Money is a free benefit given to all Multiply members. There may however be additional charges and fees associated with transactions carried out while using Multiply Money.
