

Understanding the Weekly Wins dashboard

momentum
multiply

When you log in to **multiply.co.za**, you will see your Weekly Wins dial on your main dashboard.

The dial shows your goal for this week's streak. 0 is what you've achieved so far and the second number is your activity target for this week.

The target is based on your level of logged activity and gradually increases as you achieve your weekly streaks.

How to earn Weekly Wins

Step 1 | Get a Multiply-approved activity tracking device if you don't have one already.

Link your device to your Multiply profile through the FitVault app or the manufacturer's site, based on the type of device you have. For Apple and Samsung devices, you will use the FitVault app.

Step 2 | Log in to **multiply.co.za** and check your weekly activity target on the Weekly Wins dial.

Step 3 | Complete your physical activities during the week to achieve the required streak.

Step 4 | Sync your device daily to see if you have achieved a qualifying Weekly Wins activity.

Sync your device every Sunday to see if you have achieved a streak. You will be able to sync your device up until midnight on Wednesday to earn a Weekly Win for the previous week. Please make sure you sync on time so you don't lose out on your Weekly Win.

Step 5 | Log in to **multiply.co.za** to choose your treat.

Step 6 | Redeem your treat in store within 14 days from the date of issue.
